

myPay Solutions® Workforce Management

HR - Employee portal essentials for payroll and engagement in small businesses

The power of engagement

Give your employees immediate access to pay-related information. Empower them to update their personal information and tax details. Keep them up-to-date with a company directory and corporate message board. Employees access the portal via smart-phones, tablets or other web-connected devices.

myPay direct integration

myPay direct records -

Give employees easy access to payroll-related information.

- Pay stubs
- W2, 1099/1095 information
- Direct deposit receipts
- Intergrated with select platforms

Payroll Updates -

Let employees update their personal and tax information

- W4
- Direct deposit authorization
- Address

Engagement features

Pay notifications - Proactively notify employees when direct deposits are made and pay stubs are available via e-mail or SMS.

Company directory - Connect employees through an up-to-date directory. Let employees and personal tidbits like favourite food or little known facts. Give employees the power to update their own profile.

Message board - Post company-wide messages. Set effective dates for each one. Messages are prominently displayed.

Document/link library - Make your employee handbook and other key documents instantly available. Share links. Securely store private employee records including pay history, tax forms and other documents.

Employee Rewards - Offer employees an exclusive perk program with discounts on hundreds of products and services.
