

myPay Solutions® Workforce Management

Time & Attendance

myPay Solutions Workforce Management Time & Attendance delivers the latest in cloud-based punch and time card services supporting intelligent clock features and a wide range of clocks. Track and manage punches, time cards, time-off requests and accruals. Seamlessly integrates with myPay Direct Payroll.

Time & attendance clock support

TimeWorksTouch - Touch-screen clock with fingerprint reader and interactive employee prompts.

Web-based clocks - Embedded time clocks in employee portals, web pages and HCM applications.

Mobile - Mobile apps for iOS and Android.

Hardware clocks - Multiple other clocks with authentication via PIN, proximity, magnetic or hand readers.

Mobile - Mobile apps for iOS and Android.

Cloud-based timekeeping service

Intelligent clock features

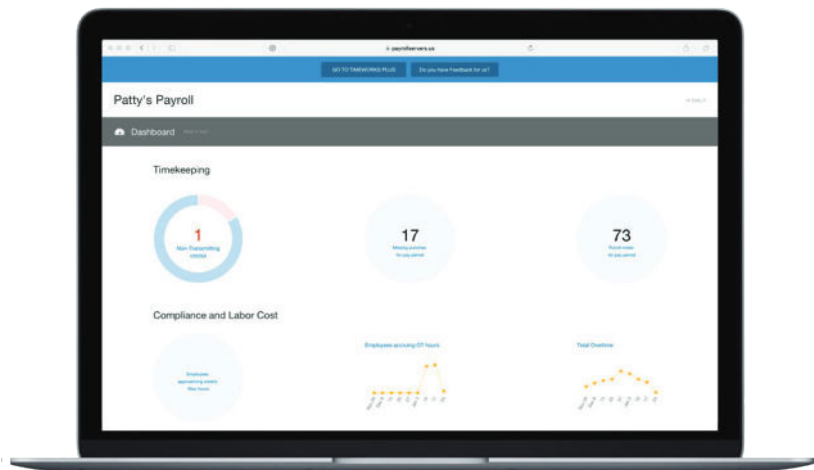

Employee state awareness eliminates duplicate and missed punches, while tracking meal breaks.

Clock lock-outs

Prevent early punches with schedule enforcement.

Flexible configuration

Customized pay rules, overtime calculations, compliance requirements and accrual application.

Employee self-service

Employee portal for time-off requests, time card approvals and review of schedules and PTO balances.

MPS direct payroll intergration

Auto-sync timekeeping and payroll and significantly reduce processing time.

Reports and audit data

Insight and tools for absence and overtime management, leave planning and compliance.

Subscription service

One service provides you with everything needed for interactive and automated workforce management.
