

myPay Solutions®

Your strategic payroll partner

How can you get all the benefits of being involved with your clients' payrolls, without the hassle or liability of actually processing them?

myPay Solutions is the payroll processing service designed with the accountant in mind. It's the ideal solution for accounting firms that want all the benefits of providing their clients with payroll services, without the liability

or hassle of processing it. You can refer your clients to myPay Solutions with confidence, knowing that their payroll processing will be efficient, convenient and hassle free.

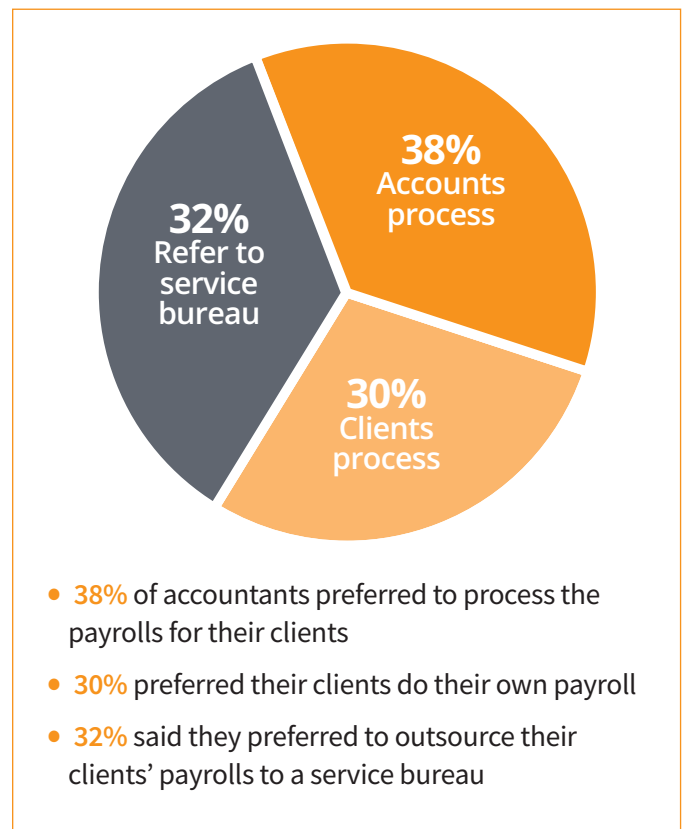

By referring your clients to myPay Solutions, you're working with a strategic partner who will respect the fact that you have granted us the privilege to serve your clients, who will only act in your best interests.

Built on a history of experience serving accountants

myPay Solutions is part of the Tax & Accounting business of IRIS Software, an organization that has been serving tax and accounting professionals for more than 30 years. Our experience with the complex requirements of payroll processing along with our expertise with in advanced technology has helped us develop a unique payroll service that offers the utmost in accuracy and convenience to our users.

How accountants prefer to handle clients' payroll

In a survey of accounting professionals, we asked how they prefer to handle their clients' payroll. We found the results very interesting:

With this in mind, myPay Solutions is a comprehensive payroll service for accountants

who choose to refer their clients' payroll to an outside provider, without sacrificing service or their client relationship. It's also the perfect solution for accountants who would like to keep some of their payrolls in house and outsource others.

In our customers' words

“myPay Solutions feels more like a back-office partner than a separate service bureau. They let me maintain my relationship with my clients, but they're always there when we need them.”

Christine Trumbull, Owner, CL Trumbull & Company, LLC

“The biggest benefit was that we were able to eliminate a lot of the payroll problems that we had. Now if there's a problem, we contact our myPay Solutions rep and it's done.”

Tim Vande Werken, Partner, Evenhouse & Co, P.C.

“The myPay Solutions payroll processing service has allowed us to create additional capacity within the firm without hiring additional team members, so our payroll processing has been streamlined.”

Ryan Cook, Owner, Ryan S. Cook, CPA LLC

“We use the myPay Solutions payroll processing service internally and it is so effortless. A lot of the responsibility for missing deadlines and penalties is completely off the table.”

Rob Carmines, Managing Partner, Carmines, Robbins & Company
